This strategy covers the complete 90-day go-to-market plan for TwinMaq — from Jeddah launch through MENA expansion — including outreach sequences, pricing, digital campaigns, KPIs, and execution checklists.

SECTION 01

01 Strategic Foundation & Revenue Targets

Mission

Position TwinMaq as the **#1 interactive 3D real estate visualization platform in Saudi Arabia** — built locally, priced competitively, and designed for the Arabic-speaking buyer. Every real estate developer in the Kingdom should associate digital project presentation with TwinMaq.

Vision

By end of 2027, TwinMaq operates in Saudi Arabia, UAE, Jordan, and Egypt — with a recurring annual revenue base exceeding SAR 5,000,000 from platform hosting, add-on services, and new project contracts.

2026 Revenue Targets

Quarter	Contracts Target	Revenue Target (SAR)	Primary Market
Q2 2026 (May–Jun)	2–3	200,000 – 350,000	Jeddah
Q3 2026 (Jul–Sep)	4–5	400,000 – 600,000	Jeddah + Riyadh launch
Q4 2026 (Oct–Dec)	5–6	550,000 – 750,000	Riyadh + UAE outreach
Full Year 2026	12–15	1,500,000 – 1,800,000	KSA primary

Core Monthly Performance Benchmarks

KPI	Monthly Target	Notes
New leads contacted	60–80	Across all channels
Demo sessions held	8–12	30-min live walkthroughs
Proposals sent	5–8	Technical + Financial pair
Contracts signed	1–2	Target: 40% proposal close rate
Lead response time	< 24 hours	WhatsApp or email
Recurring hosting renewals	Cumulative +1/month	SAR 12,000–18,000/year each

SECTION 02

02 Market Landscape & Vision 2030 Opportunity

Saudi Arabia's real estate sector is the primary growth engine of Vision 2030, with over SAR 1.7 trillion in planned projects through 2030. The convergence of mega-projects (NEOM, Red Sea, Diriyah, Qiddiya), private residential development in Riyadh and Jeddah, and rapidly digitizing buyer expectations creates an exceptional window for TwinMaq.

Market Drivers

Driver	Impact on TwinMaq
Vision 2030 real estate pipeline — SAR 1.7T+ in projects	Massive volume of developers needing pre-sales tools
90% of Saudi buyers research digitally before visiting a sales center	Demand for immersive digital experiences is structural
Pre-selling off-plan units is now standard practice in KSA	Developers need convincing visual tools before construction
No dominant local interactive visualization platform exists	First-mover advantage available for TwinMaq
ZATCA digital invoicing + VAT compliance requirements	UAE competitors face friction; TwinMaq is Saudi-compliant
Arabic-first UX is critical for buyer trust in KSA	TwinMaq's bilingual native design is a structural advantage

Key Insight: Real estate developers in Jeddah and Riyadh are actively looking for digital alternatives to physical showrooms, which cost SAR 300,000–1,200,000 to build and operate. TwinMaq at SAR 51,750–201,250 replaces or supplements that cost entirely.

Market Size Estimate — KSA Interactive Visualization

Segment	Est. Active Developers	Addressable Projects/Year	TwinMaq Avg Contract (SAR)	TAM (SAR)
Large developers (>500 units/year)	~40	~80	250,000	20,000,000
Mid-size developers (100–500 units/year)	~200	~300	130,000	39,000,000
Small developers (30–100 units/year)	~500	~600	75,000	45,000,000
Total Addressable Market	~740	~980	—	~104,000,000

SECTION 03

03 Competitive Landscape — Vancore & PropTech Companies

Design Zone competes in two overlapping zones: **Vancore Studio** as the primary named rival offering a comparable product, and the broader universe of **PropTech companies** — Property Technology firms competing for the same developer budget, attention, and digital mindset. Both must be addressed in every sales conversation and proposal.

Primary Named Competitor — Vancore Studio (UAE)

Vancore Studio's IAS (Interactive Architecture Solution) is the most structurally comparable platform to TwinMaq in MENA. UAE-based, no Saudi office. Known client: Modad Properties.

Feature	Vancore IAS	TwinMaq	Advantage
Interactive 2D / 3D Location Map	✓	✓	—
360° Bird's-Eye View + Day/Night Mode	✓	✓	—
Amenities Hotspots & 360° Panoramas	✓	✓	—
Unit Selection & Floor Plan Viewer	✓	✓	—
Interior Walkthrough Video	✓ add-on	✓	Included in higher tiers
AutoCAD 2D Layout Generation	✗	✓	TwinMaq exclusive
Unit Comparison Engine	✗	✓	TwinMaq exclusive
Buyer Lead Registration at Unit Level	✗	✓	TwinMaq exclusive
Materials & Finishes Selector	✗	✓	No competitor offers this
Social Media Marketing Content Package	✗	✓	TwinMaq exclusive
Arabic-First Bilingual Interface (RTL)	✗	✓	Built for Saudi buyers natively
Saudi Office + ZATCA-Compliant Invoicing	✗	✓	Zero cross-border friction
Annual Hosted Platform + Recurring SLA	✗	✓	Ongoing client relationship

Sales Counter vs. Vancore: "Vancore is a strong platform — but we offer 5 capabilities they do not, at comparable pricing, by a Saudi company with no cross-border complications. Let me show you a direct comparison."

Competitive Category — PropTech Companies

PropTech Sub-Category	Example Companies	TwinMaq Counter-Position
Interactive 3D Visualization Platforms	Vancore Studio, Matterport, Virtual Xperience (VX)	TwinMaq offers more exclusive features and Saudi presence. Matterport scans built spaces only — not useful for off-plan pre-sales.
VR / AR Real Estate Platforms	PropVR, Ocuspace, Eyekan	VR requires headsets and on-site setup. TwinMaq runs on any phone or laptop — no hardware, no download. A sales tool, not a showroom demo.
Real Estate Digital Portals	Property Finder, Bayut, Aqar (أقار), Wasalt	Portals are distribution channels, not visualization tools. TwinMaq creates the 3D content that makes a portal listing 10× more engaging — complementary, not competing.
Real Estate Sales & CRM Tech	Salesforce RE, PropTech CRM platforms	TwinMaq includes built-in buyer interest registration. For mature operations, TwinMaq integrates via optional CRM add-on (SAR 10,000–15,000).
Traditional 3D Render Studios	Local KSA / Jordan studios, freelance artists	Renders are one-way — buyers watch and close the tab. TwinMaq is interactive: explore, choose finishes, compare, register. Same cost, incomparably more sales value.

The 5 Exclusive Advantages — TwinMaq vs. All PropTech Competitors

#	Exclusive Advantage	Who Lacks It
1	Materials & Finishes Selector — buyers customize finishes in real time before signing	Vancore, PropVR, all PropTech, all 3D studios
2	Built-in Social Media Marketing Content — platform + full campaign in one delivery	Vancore, all visualization platforms, all PropTech
3	Arabic-First Bilingual Interface (RTL native) — not translated as afterthought	Vancore, Matterport, PropVR, all international PropTech
4	Saudi Office + ZATCA-Compliant Invoicing — local entity, local contracts	Vancore (UAE), PropVR, all international PropTech
5	Hosted Live Platform with Annual SLA — not a file, a maintained live environment	Most 3D studios, Vancore (unclear SLA), freelancers

Sales Quick-Response Guide

Prospect Says...	Immediate Response
"We are talking to Vancore Studio"	"Vancore is solid — let me show you 5 features we offer that they don't, plus our Saudi-based advantage." → Open comparison table.
"We looked at a PropTech platform"	"Which one specifically? TwinMaq is the only one built for Saudi off-plan pre-sales, in Arabic, by a Saudi-registered company. Let me show you a direct comparison."
"We saw PropVR / a VR solution"	"VR requires headsets and on-site setup. TwinMaq runs on any phone — no hardware needed. It's a 24/7 sales tool, not a showroom demo."
"We use Property Finder / Bayut"	"TwinMaq creates the 3D content that makes your portal listing the most engaging one in its category. They work together, not against each other."
"A 3D studio quoted us less"	"A studio delivers a video — buyers watch once and close the tab. TwinMaq delivers an interactive platform where buyers explore, choose finishes, and register interest. The sales impact is not comparable."
"Matterport scanned our showroom"	"Matterport captures built spaces. TwinMaq visualizes projects that haven't been built yet — from your CAD files. These are entirely different tools."

SECTION 04

04 Target Audience & Client Segmentation

Segment A — Primary: Saudi Real Estate Developers

Attribute	Detail
Profile	Companies developing residential compounds, apartment towers, villas, or mixed-use projects in KSA
Target Cities	Jeddah (Phase 1) → Riyadh (Phase 2) → Dammam / Khobar / Makkah (Phase 3)
Project Scale	30–500+ units; 1–5 building typologies
Budget Range	SAR 80,000–300,000 per project
Decision Makers	CEO / Owner, VP Marketing, Sales Director, Project Manager
Core Pain Point	Must pre-sell units before construction — buyers won't commit from static renders alone
Trigger Events	Project launch 3–9 months out; sales center opening; investor day; exhibition
Where to Find	LinkedIn, real estate exhibitions (Cityscape, Index), WhatsApp referrals, muqawil.org

Segment B — Secondary: Real Estate Marketing Agencies

Attribute	Detail
Profile	Agencies managing project marketing, branding, and sales for developer clients
Budget Range	SAR 50,000–150,000 (charged to their developer client — markup opportunity)
Partnership Model	Reseller / referral — agency bundles TwinMaq; 10–15% referral fee on each signed contract

Segment C & D — Growth Markets

Segment	Profile	Budget	Timing
C — Jordan & Egypt	Mid-size residential developers in Amman and Cairo via Design Zone branch offices	USD 15,000–50,000	Month 10–12
D — Commercial & Hospitality	Hotels, office parks, malls needing investor-grade presentations	SAR 150,000–400,000	Selective targeting

Audience Prioritization Matrix

Priority	Segment	Deal Value	Close Speed	Focus Phase
 Now	Saudi Developers — Jeddah	SAR 80K–300K	4–8 weeks	Phase 1 (M1–3)
 Now	Saudi Developers — Riyadh	SAR 100K–400K	4–10 weeks	Phase 2 (M4–6)
 Soon	Marketing Agencies (KSA)	SAR 50K–150K	6–12 weeks	Phase 1–2
 Soon	Commercial & Hospitality	SAR 150K–400K	8–16 weeks	Phase 2–3
 Later	UAE Developers	AED 100K–500K	8–14 weeks	Phase 3 (M7–9)
 Later	Jordan & Egypt	USD 15K–50K	8–14 weeks	Phase 4 (M10–12)

SECTION 05

05 Positioning & Messaging Framework

Core Positioning Statement

"TwinMq is the only interactive real estate visualization platform in Saudi Arabia that combines an immersive 3D buyer experience, a real-time Materials & Finishes Selector, built-in marketing content production, Arabic-first design, and Saudi-based delivery — in a single hosted platform, delivered in 8 weeks."

Elevator Pitch (30 Seconds)

TwinMq is an interactive 3D platform that lets buyers explore a project completely — location, surroundings, units, amenities, and material finishes — from any phone or sales kiosk. Unlike VR platforms that require hardware, PropTech tools that only list properties, or 3D studios that produce static videos, TwinMq is a live sales environment. Built by Design Zone, Saudi-based, Arabic-first, delivered in 8 weeks.

Messaging by Audience

Audience	Primary Message	Competitive Angle
Developer (CEO)	"Stop losing buyers to developers who show more. No PropTech competitor in Saudi Arabia offers what we offer."	vs. Vancore: exclusive features; vs. 3D studios: interactive not static
Developer (Marketing VP)	"TwinMq is always-on and produces social media content from the same 3D environment. No other platform does this."	vs. all PropTech: marketing content is exclusive
Marketing Agency	"Upgrade your client's toolkit with features that no UAE or international PropTech company provides locally."	vs. Vancore and all international tools: local + exclusive
Investor / Commercial	"Show investors a living project, not a PDF — built by a Saudi engineering firm with 10+ years and 200+ projects."	vs. portals + static renders: credibility + immersion
UAE Prospect	"Vancore is our closest regional competitor — TwinMq offers 5 features they do not, at comparable pricing, with ZATCA-compliant invoicing."	Direct Vancore counter-positioning

The 5 Exclusive Proof Points — Use Against Vancore & All PropTech

1. Materials & Finishes Selector

Buyers choose flooring, wall finishes, and fixtures inside the platform — in real time, before signing. No PropTech competitor or visualization platform in Saudi Arabia offers this. Creates ownership feeling pre-purchase and shortens the decision cycle.

2. Built-in Social Media Marketing Content Package

The only platform that includes a marketing content pipeline. Instagram Reels, YouTube videos, and ads produced from the same 3D environment — full visual consistency across all channels. Vancore and all other PropTech deliver a platform only. TwinMaq delivers platform + campaign.

3. Arabic-First Bilingual Interface (RTL Native)

Built natively in Arabic with proper right-to-left rendering — not translated as afterthought. For Saudi buyers, Arabic-first UX is a trust signal. Vancore, Matterport, PropVR, and all international PropTech are English-primary.

4. Saudi Office + ZATCA-Compliant Invoicing

Design Zone is Saudi-registered. Clients receive ZATCA-compliant VAT invoices, sign contracts under Saudi commercial law, and deal with a team in their timezone. Vancore (UAE) and all international PropTech introduce cross-border friction.

5. Hosted Live Platform with Annual Maintenance SLA

Not a deliverable file — a live, maintained platform. Updates handled through the annual hosting agreement (SAR 12,000–18,000/year). Most 3D studios and PropTech tools deliver a file and walk away.

SECTION 06

06 Geographic Expansion Plan

TwinMaq's expansion follows a disciplined market-by-market approach. Each phase builds revenue, reputation, and team capacity before the next market is activated.

Phase 1 — Jeddah | Months 1–3 (May–July 2026)

Item	Detail
Goal	2–3 signed contracts; establish brand credibility; build first case studies
Lead Sources	MAYADA DATA (113 contacts), Companies 2024 list (97), LinkedIn outreach, WhatsApp broadcast
Outreach Volume	60 contacts/month via WhatsApp + Email; 10 LinkedIn connects/day
Sales Activity	8–12 demos/month; 5–8 proposals/month
Key Milestone	First signed contract by Week 6 — generates first case study
Marketing Spend	SAR 5,000–7,000/month (LinkedIn + Instagram — Jeddah geo-targeted)

Phase 2 — Riyadh | Months 4–6 (August–October 2026)

Item	Detail
Goal	3–5 Riyadh contracts; position TwinMaq as KSA-wide platform
Activation Trigger	At least 2 Jeddah contracts signed — proven case studies ready
Sales Approach	Remote demos first (video call), on-site meetings for >SAR 150K deals
Hire Recommendation	Part-time Riyadh-based BD representative (Month 4)
Marketing Spend	SAR 10,000–15,000/month (Riyadh + Jeddah combined)

Phase 3 — UAE (Dubai / Abu Dhabi) | Months 7–9

Item	Detail
Goal	2–3 UAE contracts; test AED pricing; build UAE reference clients
Competitive Note	Vancore Studio is UAE-based — counter with KSA track record, exclusive features, same or lower pricing
Pricing	AED equivalent: Package A ~AED 55K; B ~AED 115K; C ~AED 215K
Hire Recommendation	UAE-based freelance BD agent on commission (10–15% of contract value)
Marketing Spend	SAR 20,000–25,000/month (UAE ads + KSA maintenance)

Phase 4 — Jordan & Egypt Months 10–12	
Item	Detail
Goal	1–2 Jordan contracts; 1–2 Egypt contracts via Design Zone branch offices
Activation Channel	Design Zone Amman branch (Jordan); Design Zone Cairo branch (Egypt) — warm introductions
Pricing	Jordan: ~70% of KSA rates; Egypt: ~50–60% of KSA rates
Marketing Spend	SAR 5,000–8,000/month (LinkedIn + WhatsApp — no paid ads in early phase)

SECTION 07

07 Step-by-Step Execution Plan

The complete operational sequence — every step required to move from zero active pipeline to a consistently converting sales engine. Steps are ordered by dependency.

STEP 1–5: Foundation (Week 1)

Step 1 — Clean and score the lead database

Open all Excel files in Data folder. Tag each company. Score  /  /  . Export cleaned list. Target: 40–60 qualified, scored leads ready for outreach.

Step 2 — Set up WhatsApp Business account

Profile: TwinMaq | Design Zone, TwinMaq logo, demo video bio link. Create 3 broadcast lists: Hot Leads, Warm Leads, Past Clients. Set auto-reply for outside hours.

Step 3 — Finalize proposal documents

Confirm Technical and Financial proposals are PDF-ready and tested on mobile. Both proposals sent within 24 hours of every demo.

Step 4 — Record 90-sec Materials & Finishes screen recording

This is the sharpest hook — no competitor has it. Use in WhatsApp Day 10 follow-up for every lead.

Step 5 — Re-engage Aleen (Mr. Saad) immediately

Send WA-RE-01 + upgraded financial proposal. Existing relationship = fastest path to first contract.

STEP 6–10: Launch Outreach (Weeks 2–3)**Step 6 — Launch Batch 1: Top 20 Hot Leads**

Send WA-01 + EMAIL-01 simultaneously on Day 1. Log send date per lead. Schedule Day 3 follow-ups immediately in calendar.

Step 7 — Connect with 10 LinkedIn decision-makers per day

Search: "Real estate developer" + "Jeddah" or "Riyadh". Send LI-01 connection request. No sales message until connected.

Step 8 — Post first LinkedIn content piece

"5 reasons Saudi real estate buyers don't commit from renders alone" — 300 words + TwinMaq Materials Selector screenshot. Primes audience before personal outreach.

Step 9 — Hold first demo sessions

Use Demo.mp4 as base. Walk through: (1) master plan, (2) unit selector, (3) Materials & Finishes, (4) 360° panorama. End with: "Which part is most relevant to your project?"

Step 10 — Send proposals within 24 hours of every demo

Technical Proposal PDF + Financial Proposal PDF separately. Follow with: "I will follow up in 3 business days — please let me know if you have questions on the pricing or scope."

STEP 11–15: Convert & Scale (Weeks 4–8)**Step 11 — Execute 3-touch follow-up after each proposal**

Day 3: check-in call or WhatsApp. Day 7: case study email (Aleen). Day 14: final offer with 14-day pricing validity. Day 21: closing message — archive if no response.

Step 12 — Close first contract and kick off delivery

On signing: collect 40% Milestone 1 payment. Request all client files within Week 1. Begin 8-week delivery process.

Step 13 — Launch Batch 2 (Warm) and Batch 3 (Cool Leads)

Batch 2: Email Day 1, WhatsApp follow-up Day 3. Batch 3: Email only, monthly. Add 10 new leads/week from master list continuously.

Step 14 — Collect and publish first case study

After first project: 1-page PDF (project name, scope, timeline, client quote). Publish LinkedIn. Embed in Email-02 for all future outreach. Most powerful sales tool available.

Step 15 — Launch referral program

After every signed client: "Introduce us to 2 developers — if they sign, you receive SAR 5,000 credit toward your next project or hosting renewal." Zero-cost pipeline builder.

SECTION 08**08 Sales Process & Pipeline**

The 10-Stage Sales Funnel

#	Stage	Definition	Target Conversion
1	Lead	Contact identified — not yet reached	—
2	Contacted	First WhatsApp or email sent	60% → Responds
3	Responded	Lead has replied	70% → Qualifies
4	Qualified	Active project + budget + decision-maker confirmed	50% → Demo
5	Demo Done	30-min live walkthrough completed	70% → Proposal
6	Proposal Sent	Technical + Financial proposals delivered	40% → Closed
7	Negotiation	Scope or pricing adjustments in discussion	75% → Closed
8	Closed Won	Agreement signed + 40% Milestone 1 payment received	100%
9	Delivery	8–10 week project execution	—
10	Upsell / Referral	Hosting renewal, add-ons, 2 referral introductions	60% → Renewal

Objection Handling Reference

Objection	Response
"We already use 3D renders"	Renders are static — buyers watch once. TwinMaq lets buyers choose finishes, select units, and register interest. The difference between showing and selling.
"The price is too high"	Package A starts at SAR 51,750 — less than one month's operating cost for a physical showroom. TwinMaq markets all units 24/7 from anywhere in the world.
"We don't have 3D models yet"	We build the 3D from your CAD drawings and material specifications. You provide the AutoCAD files — we handle everything within the agreed timeline.
"We need to think about it"	"Understood. Let me send the Aleen case study and hold this pricing for 14 working days."
"We found a cheaper option"	"Materials & Finishes Selector, Marketing Content Package, and Arabic-first interface are not available anywhere else. Let me show a comparison before you decide."
"Our project timeline is too early"	That's perfect timing. TwinMaq takes 8–10 weeks — starting now means the platform launches with your marketing campaign, not after it.

SECTION 09

09 Outreach Sequences & Call-to-Actions

The 21-Day 5-Touch Sequence

Day	Channel	Template	Call-to-Action
Day 1	WhatsApp + Email	WA-01 + EMAIL-01	Book a 30-min demo this week
Day 3	WhatsApp	WA-02	Confirm demo time
Day 7	Email	EMAIL-02 (case study)	Quick call this week?
Day 10	WhatsApp	WA-03 (exclusive feature clip)	Show how it applies to your project
Day 14	Email	EMAIL-03 (14-day pricing lock)	20-min call before pricing expires
Day 21	WhatsApp	WA-04 (respectful close)	Archive → 90-day re-engage reminder

WhatsApp Templates (Arabic)

WA-01 — Day 1: First Contact

مرحباً [الاسم]،

أنا [اسمك] من فريق TwinMq بشركة Design Zone.

نقدم منصة تفاعلية ثلاثية الأبعاد تُمكن المشتريين من استكشاف مشروعك العقاري بشكل كامل — من الموقع وحتى الوحدات والمواد والمرافق — عبر الهاتف أو الشاشات في مكتب المبيعات.

أرسلت لك فيديو توضيحياً قصيراً.

هل يمكنني تحديد موعد لعرض مدته 30 دقيقة؟

WA-02 — Day 3: Follow-Up

مرحباً [الاسم]،

أردت فقط التأكد من وصول الفيديو.

هل هناك وقت مناسب هذا الأسبوع؟

WA-03 — Day 10: Exclusive Feature Hook

مرحباً [الاسم]،

لدينا ميزة حصرية لا يقدمها أي منافس: محدد المواد والتشطيبات — يتيح للمشتري اختيار تشطيبات وحدته داخل المنصة مباشرة.

هل تود أن نريك كيف يمكن تطبيق ذلك على مشروعكم؟

WA-04 — Day 21: Respectful Close

مرحباً [الاسم]،

أعلم أن الوقت دائماً مشغول. إذا كان المشروع لم يصل بعد إلى مرحلة التسويق، سأبقى على تواصل في وقت لاحق. ونحن هنا متى احتجتم إلينا.

شكراً، [اسمك] — TwinMq | Design Zone

WA-RE-01 — Re-Engagement (Aleen / Past Leads)

مرحباً المهندس [الاسم]،

أتمنى أن تكون بخير.

طوّرتنا منصة TwinMq بشكل كبير منذ آخر تواصل بيننا. أضفنا محدد المواد والتشطيبات — تتيح للمشتريين اختيار تشطيبات وحدتهم داخل المنصة مباشرة — ولا يوجد أي منافس يقدم هذه الميزة في السوق السعودية حالياً.

أود إرسال عرض محدّث. هل هذا الأسبوع مناسب لمكالمة سريعة؟

مع التحية، [اسمك] — TwinMq — Design Zone

Email Templates (English)

EMAIL-01 — Day 1: Introduction

Subject: Interactive 3D Platform for [Company Name]'s Projects Dear [Name], I'm [Your Name] from Design Zone's TwinMaq team. We've built an interactive 3D visualization platform that helps Saudi real estate developers present their projects in a way that converts buyers – not just impresses them. TwinMaq allows buyers to: ☒ Explore the full project in 3D – location, surroundings, amenities ☒ Select and walk through individual unit layouts and floor plans ☒ Customize materials & finishes in real time (exclusive – no competitor offers this) ☒ Register their interest at the unit level – directly generating sales leads We recently delivered this for a residential project in Khobar (6 floors, 66 units) in 8 weeks. Would a 30-minute live demo be useful for your team? Best regards, [Your Name] | TwinMaq, Design Zone Engineering Solutions 📞 [Phone] | 🌐 www.designzone.com.sa

EMAIL-02 — Day 7: Case Study

Subject: How a Khobar developer is showcasing 66 units with TwinMaq Dear [Name], We recently delivered TwinMaq for a residential development in Khobar – 6 floors, 66 units. The platform includes full 3D exterior, interactive masterplan, 360° amenity walkthroughs, unit selection with floor plans, interior walkthrough videos, and buyer lead registration. Delivered in 8 weeks. I'd love to show you how a similar solution could work for [Company Name]'s project. Are you available for a quick call this week? Best regards, [Your Name]

EMAIL-03 — Day 14: Final Offer

Subject: TwinMaq pricing for [Company Name] – valid 14 working days Dear [Name], Our Essential package starts at SAR 51,750 (incl. VAT) – less than most physical showroom monthly costs, and TwinMaq markets your project 24/7 with no ongoing staff requirement. This pricing is valid for the next 14 working days. Would you be open to a 20-minute call before then? Best regards, [Your Name]

LinkedIn Templates

LI-01 — Connection Request

Hi [Name], I came across [Company] while researching leading Saudi real estate developers. We've built TwinMaq – an interactive 3D platform that helps buyers explore projects and decide faster. Would love to connect.

LI-02 — First Message After Connection

Hi [Name], thanks for connecting. TwinMaq (by Design Zone) is an interactive 3D platform for real estate developers – bird's-eye view, unit selection, 360° amenities, and a Materials & Finishes Selector that no other platform in Saudi Arabia offers. We recently delivered this for a Khobar project in 8 weeks. Would a quick demo make sense?

Cold Call Opening (Arabic)

مرحباً، أتحدث مع [الاسم]؟ أنا [اسمك] من Design Zone. لدينا منصة تفاعلية ثلاثية الأبعاد للمشاريع العقارية وأود أن أريكم كيف تعمل على مشروعكم. هل تتاح لكم دقيقتان؟

SECTION 10

10 Digital Marketing & Social Media Plan

Channel Strategy Overview

Channel	Goal	Frequency	Priority
LinkedIn	B2B lead generation, thought leadership	3 posts/week + daily outreach	Critical
WhatsApp Business	Direct sales, follow-up sequences	Per outreach schedule	Critical
Instagram	Brand awareness, project showcases	4 posts/week	High
YouTube	Platform demos, case studies	2 videos/month	High
Google Search	Intent-based lead capture	Always-on ads	High
TikTok	Viral reach, brand discovery	3/week	Medium

LinkedIn Weekly Content Calendar

Day	Post Type	Example
Monday	Educational (text + image)	"5 reasons Saudi buyers don't commit from renders alone"
Wednesday	Product Demo (video clip)	30-sec Materials & Finishes Selector demo
Friday	Market Insight or Case Study	"Saudi PropTech: where the market is heading in H2 2026"

Daily outreach (30 min): 10 connection requests to real estate decision-makers → 5 follow-up messages to accepted connections → Engage with 3 target company posts.

WhatsApp Business Broadcast Strategy

List	Audience	Frequency	Content
Hot Leads	Leads in Demo / Proposal / Negotiation	Per sequence schedule	Personalized follow-ups, meeting confirmations
Warm Leads	Responded but not yet qualified	Weekly	New feature clips, market insights, case study teasers
Client List	Signed and delivered clients	Monthly	Platform updates, upsell announcements, renewal reminders

SECTION 11

11 Paid Advertising Strategy & Budget Allocation

Paid advertising amplifies outreach to decision-makers not yet in the existing database. Budgets scale with geographic phase. All spend tracked weekly with cost-per-lead and cost-per-demo benchmarks.

Monthly Ad Budget Allocation by Phase

Phase	Market	LinkedIn (SAR)	Instagram/FB (SAR)	Google (SAR)	TikTok (SAR)	Total/Month (SAR)
Phase 1 (M1–3)	Jeddah only	2,500	1,500	1,000	—	5,000
Phase 2 (M4–6)	Jeddah + Riyadh	5,000	3,000	2,000	1,500	11,500
Phase 3 (M7–9)	+ UAE	8,000	5,000	3,500	2,000	18,500
Phase 4 (M10–12)	+ Jordan/Egypt	9,000	6,000	4,000	2,000	21,000

Ad Performance Benchmarks

Metric	Phase 1 Target	Phase 2 Target	Phase 3 Target
LinkedIn cost per lead (SAR)	40–60	30–50	25–40
Instagram cost per demo request (SAR)	80–120	60–100	50–80
Google cost per click (SAR)	8–15	6–12	6–10
Total leads from paid ads/month	15–25	30–50	60–90

Rule: Do not increase ad spend unless cost-per-demo is under SAR 200. If it exceeds SAR 300, pause ads and revise creative. Organic outreach has zero cost — maintain at full volume regardless of ad performance.

SECTION 12

12 Content Strategy

The 4 Content Pillars

Pillar	Goal	Formats	Frequency
Education	Teach why interactive 3D beats static renders	LinkedIn articles, infographics, blog posts	Weekly
Proof	Show real results and client success	Case studies, testimonials, project showcases	Monthly (each new client)
Product	Demonstrate TwinMaq features and exclusives	Demo videos, feature clips, screenshots	Bi-weekly
Market	Establish Design Zone as Saudi PropTech authority	Market reports, trend posts, Vision 2030 analysis	Monthly

Priority Content — Ordered by Impact

#	Content Item	Format	Channel	Deadline
1	Aleen Project Case Study	1-page PDF + 60-sec video	Email, LinkedIn, WhatsApp	Month 1
2	TwinMaq Full Platform Demo Video	3–5 min YouTube	YouTube, email signature, proposals	Month 1
3	Materials & Finishes Feature Clip (30 sec)	Instagram Reel + LinkedIn video	Instagram, LinkedIn, WA Day 10	Month 1
4	"5 Reasons Renders Fail Saudi Buyers"	LinkedIn article + infographic	LinkedIn, blog	Week 2
5	TwinMaq vs. Physical Showroom Cost Comparison	Infographic	LinkedIn, Instagram, proposals	Month 2
6	Saudi PropTech Market Report 2026 (gated)	PDF 8–12 pages	LinkedIn Lead Gen form	Month 3

Content Repurposing Flow

Demo video (3–5 min YouTube) → Cut to 60-sec LinkedIn → Cut to 30-sec Instagram Reel → 15-sec TikTok → 3 static screenshots → Embed in all email signatures

Case Study PDF → LinkedIn article → 5-slide Instagram carousel → WhatsApp attachment → EMAIL-02 body → Proposal appendix

Market Report PDF → LinkedIn Lead Gen form (gated) → 10 weekly LinkedIn posts (one stat each) → Instagram infographic series

SECTION 13

13 Pricing Strategy

Package Summary

Package	Excl. VAT	Incl. 15% VAT	Best For
A — Essential	SAR 45,000	SAR 51,750	Small projects, 1–2 typologies, up to 50 units
B — Professional	SAR 95,000	SAR 109,250	Mid-size, 3–4 typologies, up to 150 units
C — Premium	SAR 175,000	SAR 201,250	Large, unlimited units, multi-tower, VR + marketing content

Key Add-Ons

Add-On	Price (excl. VAT)
CRM / Inventory System Integration	SAR 10,000 – 15,000
VR Integration	SAR 25,000 – 35,000
Social Media Content Pack (10 renders + 3 videos)	SAR 18,000 – 25,000
Annual Hosting & Maintenance	SAR 12,000 – 18,000 / year
Guided Virtual Tour (curated path)	SAR 8,000 – 12,000
Arabic Voiceover Package	SAR 5,000
Additional Unit Type (post-delivery)	SAR 2,500 – 5,000 per type

Payment Milestones

Milestone	%	Trigger
M1 — Kickoff	40%	Signed agreement + official PO/WO received
M2 — Modeling	20%	3D modeling delivered for client review
M3 — Alpha	25%	Staging platform shared with client
M4 — Final	15%	Final delivery accepted + written sign-off

Pricing Tactics

- **Lead with Package B (SAR 109,250):** Includes Materials & Finishes Selector. Anchors value before presenting A as fallback.
- **14-day pricing validity:** Creates urgency. State in EMAIL-03 and cover of both proposals.
- **Referral credit (SAR 5,000):** Applied to next project or hosting renewal — keeps clients engaged post-delivery.
- **Annual hosting renewal:** Position as standard — not optional. Clients who pay annual hosting are 4x more likely to order a second project.

SECTION 14

14 Resource Plan — Single Resource, AI Agents & Hire Roadmap

Single Resource Capacity

Activity	Daily Time	Monthly Output
WhatsApp outreach (new leads)	30 min	60 messages sent
Email outreach + follow-ups	30 min	80 emails sent
LinkedIn connection + messages	30 min	200 connections/month
Demo sessions (30 min each)	120 min (4 demos/week)	8–12 demos
Proposal preparation	45 min	5–8 proposals
CRM update + pipeline review	20 min	Daily logging
Content posting	30 min	12 posts
Total daily commitment	~305 min (5 hrs)	—

Capacity Limit: Once demos exceed 12/month or proposals exceed 8/month, a second person is required — otherwise follow-up quality drops and close rates fall.

AI Agents — Deploy Immediately (Zero Additional Cost)

Agent 1: Outreach Sequence Automation

Automatically schedules WhatsApp and email follow-ups on Days 3, 7, 10, 14, 21 — triggered by CRM entry.
Tools: Make.com + WhatsApp Business API + Gmail. **Time saved: 45 min/day**

Agent 2: SEO & Content Generation

Generates LinkedIn posts, Instagram captions, and blog drafts on Saudi PropTech topics weekly. Drafts reviewed before publishing. **Tools:** Claude API + Google Docs. **Time saved: 60 min/week**

Agent 3: Lead Scoring & CRM Update

Reads outreach log weekly, updates lead scores based on response behavior, flags hot leads, generates pipeline summary. **Tools:** Claude API + Google Sheets API. **Time saved: 30 min/week**

Agent 4: Social Media Scheduling

Takes drafted content, formats for LinkedIn/Instagram/X, schedules via Buffer, reports weekly engagement metrics. **Tools:** Buffer API + Make.com. **Time saved: 30 min/day**

Agent 5: Proposal Generation

Takes client briefing data via simple form → auto-generates customized Financial Proposal with correct pricing and scope. **Tools:** Claude Code + buildFinalProposalsV3.js + Puppeteer PDF pipeline. **Time saved: 60–90 min per proposal**

Hire Roadmap — Revenue-Triggered

Trigger	Role	Cost/Month (SAR)	Responsibility
2 contracts signed (Month 3)	Sales Representative — Riyadh	10,000–15,000 + 5% commission	Cold outreach, demo booking, Riyadh pipeline
5 contracts signed (Month 5)	Marketing Coordinator (freelance)	5,000–8,000	Content creation, social posting, ad management
SAR 1M revenue (Month 7–8)	UAE BD Manager (commission-only)	10–15% of UAE contract value	UAE outreach, demos, relationship management
8+ active projects	Project Coordinator	8,000–12,000	Client files, delivery tracking, QA
12+ contracts/year run rate	Senior Sales Manager	18,000–25,000 + commission	Team leadership, enterprise deals

SECTION 15

15 Tools & Technology Stack

Category	Tool	Purpose	Cost
CRM	Google Sheets (Phase 1)	Lead tracking, pipeline management	Free
	Twenty CRM or Frappe CRM (Phase 2)	Full CRM with automation triggers	Open source / free
Outreach	WhatsApp Business	Broadcast lists, follow-up, file sharing	Free
	Gmail / Outlook	Email sequences, template sending	Free / existing
	LinkedIn Sales Navigator	B2B prospecting, company targeting	SAR 500–800/month
Automation	Make.com	Outreach sequence automation	SAR 75–200/month
Content	Canva Pro	Social graphics, infographics	SAR 200/month
	CapCut / Adobe Premiere	Video editing for Reels and demo clips	Free / SAR 250/month
Scheduling	Buffer or Later	LinkedIn, Instagram, X scheduling	SAR 150–300/month
Scheduling	Calendly	Demo booking — shareable link	Free / SAR 75/month
Analytics	Google Analytics + LinkedIn Analytics	Track ad + content performance	Free
Proposals (PDF)	Puppeteer + Chrome (Node.js pipeline)	Pixel-perfect PDF from HTML templates	Free (built)
Proposals (DOCX)	Word COM (PowerShell)	Editable Word documents	Free (built)
AI	Claude (Anthropic)	Content, outreach drafting, CRM analysis, proposal automation	SAR 75–200/month
Email Tracking	Mailtrack or HubSpot Free	Know when proposals are opened	Free

SECTION 16

16 CRM & Lead Management System

CRM Tab Structure

Tab	Contents
All Leads	Master database — all 16 columns, full history
● Hot Pipeline	Leads in Demo / Proposal / Negotiation — daily review
● Warm Pipeline	Leads in Contacted / Qualified — weekly review
Closed Won	Signed clients: contract value, project name, delivery status, renewal date
Closed Lost	Declined leads with 90-day re-engage date
Outreach Log	Date / Lead / Channel / Template / Response
Ad Performance	Weekly: platform, spend, leads, cost-per-lead, demos booked

Weekly CRM Routine

- Monday (20 min):** Review all ● Hot leads — set week priorities. Check proposals past Day 14 without response → send WA-04 closing message.
- Wednesday (15 min):** Follow up on all proposals sent in last 7 days. Send EMAIL-02 to leads who had demos but haven't received case study.
- Friday (30 min):** Log all outreach. Update pipeline stages. Add new leads. Review ad performance. Set next week priorities. Re-engage leads whose 90-day date arrives.

SECTION 17

17 KPIs & Performance Dashboard

Weekly Dashboard (Track Every Friday)

Metric	Week Target	Month Target
New leads added to CRM	5–10	20–40
Outreach messages sent (WA + Email)	20–30	80–120
LinkedIn connections sent	50–70	200–280
Responses received	8–15	30–60
Demos booked and completed	2–3	8–12
Proposals sent	1–2	5–8
Contracts signed	0–1	1–2
Revenue collected (SAR)	—	100,000+
Ad cost-per-lead (SAR)	—	< 60

Funnel Health Benchmarks

Stage	Healthy Conversion	Warning	Action if Below Target
Contacted → Responded	40–60%	< 25%	Revise WA-01 / EMAIL-01; test Arabic vs. English opening
Responded → Demo	40–60%	< 25%	Improve qualification — are you reaching decision-makers?
Demo → Proposal	60–80%	< 40%	Strengthen demo closing question; add case study in demo
Proposal → Closed	35–50%	< 20%	Review pricing; check follow-up timing; add objection-handling call
Closed → Renewal	60–80%	< 40%	Improve delivery quality; proactive renewal reminder at Month 9

SECTION 18

18 90-Day Execution Checklist

Month 1 — Build & Launch (Jeddah — Weeks 1–4)

Week 1 — Foundation

- ☐ Clean and score all 3 Excel lead databases — export qualified list
- ☐ Set up WhatsApp Business with TwinMaq branding and 3 broadcast lists
- ☐ Confirm both proposal PDFs tested on mobile and desktop
- ☐ Record 90-sec Materials & Finishes Selector screen recording
- ☐ Send re-engagement to Aleen (WA-RE-01 + upgraded financial proposal)
- ☐ Update LinkedIn company page — pinned demo video, TwinMaq bio
- ☐ Set up Make.com outreach automation for 5-touch follow-up scheduling
- ☐ Create Google Sheets CRM with all 7 tabs and 16 columns

Week 2 — Launch

- ☐ Launch Batch 1: top 20 Hot leads — WA-01 + EMAIL-01 simultaneously
- ☐ Begin daily LinkedIn: 10 connection requests to Jeddah real estate decision-makers
- ☐ Publish first LinkedIn post: "5 reasons Saudi buyers don't commit from renders alone"
- ☐ Launch Phase 1 LinkedIn Sponsored Post (SAR 2,500 — Jeddah geo-targeted)
- ☐ Book first 3 demo sessions from positive responses

Week 3 — Convert

- ☐ Send Day 3 follow-ups (WA-02) for Batch 1 non-responders
- ☐ Launch Batch 2: 20 Warm leads — EMAIL-01 first, WA follow-up Day 3
- ☐ Hold first demo sessions — log feedback, refine demo flow
- ☐ Send proposals within 24 hours of each demo completed

Week 4 — Review

- ☐ Send Day 7 follow-ups (EMAIL-02 — case study) for Batch 1
- ☐ Review conversion rates — adjust messaging if response rate < 25%
- ☐ Target: at least 1 contract in Negotiation stage by end of Month 1
- ☐ Upload TwinMaq Platform Demo Video to YouTube

Month 2 — Momentum (Jeddah Close + Riyadh Prep — Weeks 5–8)

- ☐ Launch Batch 3: 20 Cool leads — EMAIL-01 only, monthly touchpoint
- ☐ Follow up all pending proposals from Month 1 (Day 14 and Day 21 sequences)
- ☐ Hold 6–8 demos; send 4–5 proposals
- ☐ Close first Jeddah contract — collect 40% Milestone 1 payment
- ☐ Request all client files within Week 1 of contract; begin 8-week delivery
- ☐ Produce Aleen case study PDF and 60-sec video
- ☐ Publish 8 content pieces: 3 LinkedIn + 4 Instagram + 1 YouTube
- ☐ Begin building Riyadh lead list for Month 4 activation
- ☐ Ask first signed client for 2 developer referrals
- ☐ Register for 1 real estate exhibition in Jeddah or Riyadh

Month 3 — Scale & Systemize (Weeks 9–12)

- ☐ Systemize outreach with Make.com templates — reduce manual time by 50%
- ☐ Collect first client testimonial (quote + photo) for content and proposals
- ☐ Launch referral program: SAR 5,000 credit per successful introduction
- ☐ Begin Jordan + Egypt outreach prep via Design Zone branch offices
- ☐ Evaluate hiring Sales Representative for Riyadh (trigger: 2 signed contracts)
- ☐ Review 90-day performance vs. targets: leads, demos, proposals, contracts, revenue
- ☐ Plan Month 4–6 Riyadh activation: lead list, ad budget increase, hire decision
- ☐ Update CRM — set 90-day re-engage dates for all archived leads

End of Month 3 Success Milestone: 3 contracts signed (SAR 300,000+ revenue), 20+ active pipeline leads, 1 published case study, referral program live, Riyadh activation plan confirmed.
